Key	Description
US11947 Automatically add the Travel Agent to reservation if CP is linked to the Travel Agent. DE3347 Corrected error when adjusting restrictions. DE3382 Corrected error when trying to adjust pricing. DE3302 Corrected incorrect display of Cost in Sales Summary Report. US11888 Display improvements in the IBE for Safari. DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3485 Improvements to the PMS Occupancy Report.	DE3571	Added translation in View History.
DE3347 Corrected error when adjusting restrictions. DE3382 Corrected error when trying to adjust pricing. DE3302 Corrected incorrect display of Cost in Sales Summary Report. US11888 Display improvements in the IBE for Safari. DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	US11910	Align Rate Code Production Report to other reports.
DE3382 Corrected error when trying to adjust pricing. DE3302 Corrected incorrect display of Cost in Sales Summary Report. US11888 Display improvements in the IBE for Safari. DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	US11947	Automatically add the Travel Agent to reservation if CP is linked to the Travel Agent.
DE3302 Corrected incorrect display of Cost in Sales Summary Report. US11888 Display improvements in the IBE for Safari. DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3347	Corrected error when adjusting restrictions.
US11888 Display improvements in the IBE for Safari. DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3382	Corrected error when trying to adjust pricing.
DE3099 Fixed Call Center to enforce guest address validation. DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3302	Corrected incorrect display of Cost in Sales Summary Report.
DE3339 Fixed Daily Ops Inventory tab display of inventory count. DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	US11888	Display improvements in the IBE for Safari.
DE3190 Fixed error when trying to adjust Inventory values. DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3099	Fixed Call Center to enforce guest address validation.
DE3274 Fixed occasional load failure in Daily Ops. US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3339	Fixed Daily Ops Inventory tab display of inventory count.
US11949 Improved external caching. DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3190	Fixed error when trying to adjust Inventory values.
DE3548 Improved Package Builder. DE3495 Improvements to the PMS Occupancy Report.	DE3274	Fixed occasional load failure in Daily Ops.
DE3495 Improvements to the PMS Occupancy Report.	US11949	Improved external caching.
	DE3548	Improved Package Builder.
DE3560 Modifications to the Performance Dashboard Market Segmentation donut graph.	DE3495	Improvements to the PMS Occupancy Report.
	DE3560	Modifications to the Performance Dashboard Market Segmentation donut graph.
US11904 Modification to Wholesaler Report to align with the PMS Occupancy Report.	US11904	Modification to Wholesaler Report to align with the PMS Occupancy Report.
US11849 Now show attributes for Rate Code in the Prices screen.	US11849	Now show attributes for Rate Code in the Prices screen.
